

I am thrilled to have this opportunity to express my opinion that the do not call law in New Jersey should remain as it exists today. My home is the one place where I can go and be at peace. Unsolicited calls are invasive and annoying. I receive calls during dinner, on Sundays and in evenings as late as 9 PM. I should have the choice as to whether or not I want such solicitation and this law protects this choice. I had not previously signed up to be on the do not call list and have so today. I surely appreciate this opportunity to do so.
